Bangkok

Dear Sirs,

We kindly like to introduce ourselves: Coolsnit Asia is a spinoff from Imex International. Imex was founded in 1995 in the Netherlands by Mr. Hermanus M. Verkerk. Coolsnit Asia is the business-partner in Asia for Coolsnit Liturgisch Design en Management from The Netherlands.

Coolsnit is the address for all your liturgical articles / statues and furniture. And we can offer these items "custom made". We work with the best suppliers and artists in Europe. At our company the customer can choose from a collection of chasubles made from high-quality fabrics in all liturgical colors. We also have the possibility to manufacture your own design chasuble. Coolsnit is also the supplier for (acolytes) albs, prayer mantles, antependia's, stoles, altar linen, etc. etc. In 2008, we have been closely involved in the realization of the 1200 vestments and miters for the visit of the Pope in Washington and New York. In three months time of hard work, this project turned out to be a great success. Below and on our website you will find several examples of our products.

Our experience in the design and layout of liturgical spaces and places of worship, satisfying all your liturgical needs, is unique in the Netherlands. We provide our customers with one contact for all their needs. Our work includes religious communities from all Dutch provinces: mainly Roman Catholic- and Protestant churches, and also others, like hospitals, airports, hotels, resorts etc, who are in need of liturgical spaces and places of worship.

Producing banners is also a specialty of our company. From fully hand-embroidered banners to machine embroidered banners. The materials used for producing banners are of very high quality. For the basic substances of the banner, the customer can choose between velour, silk or rayon. The main part of our customers is choosing for velour fabric, as this gives a more beautiful and more exclusive look. Of course, we deliver related supplies, such as standards, banner poles, brushes, handles, etc. As you can see on our website, with this embroidery equipment and these quality materials, it's also easy for us to make special wall hangings for our customers, another specialty of our company.

We strive to give our customers in Asia the same high-quality service as in Europe!

We look forward meeting you!

Best Regards,

Mrs. Kittitorn Verkerk

Sales-Manager
